Continuing Education Seminars for Insurance, Financial & Accounting Professionals

Our Seminars are approved and accepted for credit by the New Jersey Department of Banking and Insurance, and The New Jersey State Board of Accountancy. They are also accepted by most Associations and Designation authorities.

The New Jersey Department of Banking and Insurance (NJDOBI) requires that all Insurance Producers obtain **24** continuing education hours every **2 years**. As part of the requirement **3** of the **24** hours must be related to insurance **Ethics**. The remaining credits are considered electives and can be obtained by attending approved continuing education seminars or on-line classes on any topic.

Continuing Education credits are also required by most organizations that issue designations. In addition there are special courses required for those producers that sell Flood Insurance, those who deal with the PAIP/CAIP Plans, and those who sell Long Term Care Insurance. We have several of these classes scheduled throughout the year to help you meet your training needs. See below for more information;

Need Flood Training: Producers with Property authority and who write flood insurance are required to complete a three/credit flood program as required by the NFIP for the first renewal following the initial issuance or initial renewal of a license on or after Jan. 1, 2007. Producers need only take the course one time.

Need PAIP/CAIP Training: Producers with Property and Casualty authority who write insurance under the Personal Automobile Insurance Plan and the Commercial Automobile Insurance Plan are required to attend and complete a four hour PAIP/CAIP Certification course.

Need Long Term Care Training: Producers with Life and Health Authority who wish to sell LTC insurance are now required to complete an 8 hour NJ Qualified Partnership Training Program. In addition there is a 4 hour recertification class that needs to be completed every 2 year licensing cycle.

NAIC - Required Annuity Training: This 4 hour course meets the new standards as set by the NAIC for the required Annuity Training.

Licensees and/or Designees who do not obtain the required credits, by attending approved seminars offered by approved schools such as the American School of Business, will not be able to renew their producers license and/or designation.

The purpose of continuing education is to have you participate in a program that maintains and increases your skill, knowledge and competency. Toward that end, our topics were chosen because of their timeliness and interesting content. Attend our seminars or complete any of our on-line programs and you will see!

The following pages contain our current seminar schedules to help you meet your continuing education objectives.
